06 — CAPABILITIES

POWDER COATING

In-house powder coating lets Anchor ship finished, ready-to-install parts. Automated spray guns give consistent coverage on every part.

7-STAGE	1,200 HR	ANY
PRETREATMENT	SALT SPRAY PROTECTION	COLOR AND FINISH

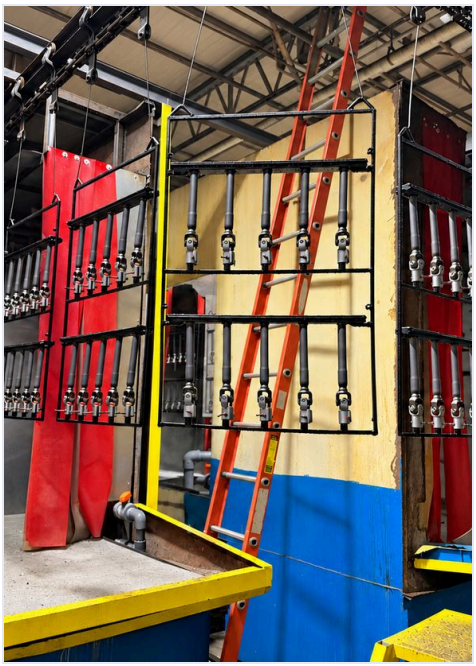

PROCESS

- Continuous seven-stage iron phosphate wash
- Fully automated electrostatic powder spray
- Oven cure
- Matte, gloss or textured finishes
- Steel, aluminum and other metals

OTHER FINISHES

- E-coat through an approved local supplier, a relationship of more than 30 years
- Anodizing and plating suppliers nearby

Applications include appliances, automotive, lawn and garden, architectural, construction and medical products.
