09 — CAPABILITIES

PROGRAM TAKEOVERS

When a supplier struggles or a program needs a new home, Anchor can take it over fast. Anchor has taken over more than 500 tools from other suppliers and customer plants, often with little lead time.

500+	1 DAY	41
TOOLS TAKEN OVER	QUOTE, TOOL CONDITION CONFIRMED	PRESSES TO MATCH YOUR DIES

WIDE BEDS

Beds up to 240″ × 70″ on the 1,200-ton transfer press and 180″ × 72″ on the 2,000-ton. Presses from 400 to 1,000 tons add beds up to 144″ wide.

LARGE TONNAGE

Six presses of 800 tons and up: 2,000, 1,200, two at 1,000, 900 and 800 tons. Three are servo transfer presses that also run coil-fed.

30 YEARS OF EXPERIENCE

Three decades building steering, safety and structural stampings and assemblies for OEMs and Tier 1s. Anchor has made metal parts since 1970.

OPEN CAPACITY

About 80% open capacity across our automatic presses, and 55% to 98% open on the presses of 900 tons and up, on a 5-day, 15-shift basis.

HOW A TAKEOVER WORKS

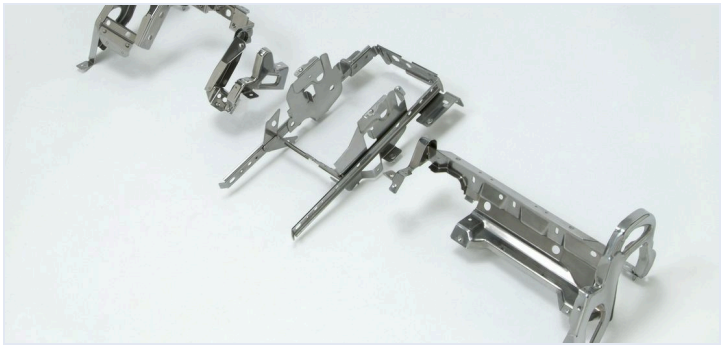

- Send us your die list
- We check the condition of every tool and match each die to a press
- Quote in as soon as one day, before you commit to the move
- A defined transfer process that holds part quality to the prior source
- Tool tryout, repair and engineering changes in our own tool shop

WHAT WE CAN TAKE ON

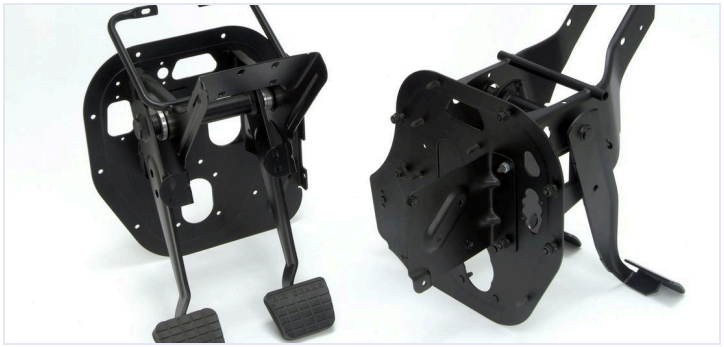

- Transfer work up to 2,000 tons and 240″ bed
- Coil-fed progressive work up to 72″ coil
- Welded and mechanical assemblies
- Fabricated, tube and powder-coated parts
