08 — CAPABILITIES

QUALITY

Quality is built into the process with IATF 16949 systems, a fully equipped metrology lab, error-proofing on the production floor and real-time data on every line.

IATF 16949	ISO 9001	ISO 14001
CERTIFIED	CERTIFIED	CERTIFIED

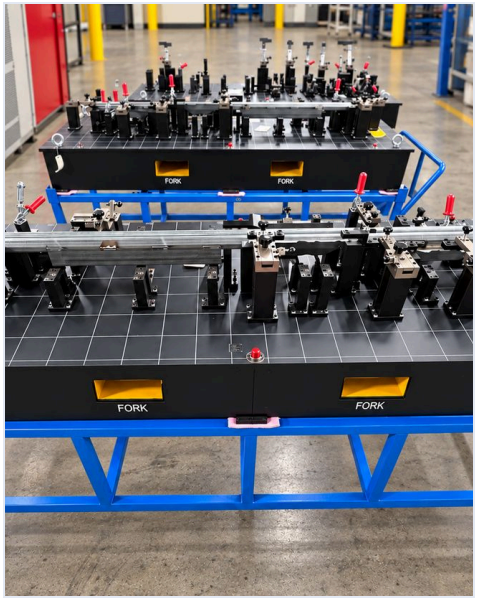

METROLOGY LAB

- Hexagon Global S CMM (118″ × 47″ × 39″)
- LK G90-C and Brown & Sharpe CMMs
- Micro-Vu optical comparator
- Mitutoyo Contracer
- 7-axis blue light scanner
- Tensile testers and weld lab for pull testing and cut-and-etch

SYSTEMS ON THE FLOOR

- Plex ERP collects quality data in real time
- Daily floor meetings with Level 1 and Level 2 metrics
- Screens on the floor show production status, equipment performance, die setup and coil change timers
- Poka-yoke: camera weld checks, fastener checks and laser sensors
- Welding parameter sheets after validation and weld study
- Dedicated checking fixtures

Certifications are renewed annually. Anchor also holds an EcoVadis CSR rating and has been named a Top Workplace in Northern Ohio multiple times.
