04 — CAPABILITIES

TUBE BENDING

Anchor bends tube and builds welded tube assemblies in-house, so tubular parts arrive joined to their stampings as part of a finished assembly.

IN-HOUSE
TUBE BENDING

WELDED
TUBE ASSEMBLIES

30 YEARS
STEERING AND SAFETY EXPERIENCE

CAPABILITIES

- Tube bending and forming
- Steel, stainless and aluminum tube
- Welded tube assemblies
- Tube-to-stamping welding and assembly
- Laser sensors confirm tube orientation in the cell

EXAMPLE: STEERING COLUMN ASSEMBLY

- 3 stampings, 2 tubes and 1 plastic sleeve
- Lubrication applied in the cell
- Assembly motion testing before shipment
- Column assembly cell rated at 800,000 per year

> Anchor has supplied tubular steering column and safety-related components for three decades.
